

YGH ARCHITECTURE

architecture | interiors | planning | portland, or
find solutions, push the envelope, create beautiful
habitats, be good citizens

We combine our specialties with a variety of in-house teams, including programming, cost-estimating, BIM, and sustainability.

We are passionate and committed to creating conscious, healthy and beautiful spaces.

We work in teams and believe that a unified collaborative culture empowers staff when producing their best work. We are JUST certified and PVC-free.

We like to design together, eat together, have fun together. Join us!

YGH is a nationally recognized architecture, interior design, and planning firm located in downtown Portland, Oregon. We serve a wide variety of clients throughout the Pacific Northwest and around the world. **We are seeking a BIM Manager** with up to five years of work in Revit plus more in architectural experience to join our team.

OPEN POSITION : BIM Manager

The BIM Manager will be responsible for working closely with the design staff, assisting them in project development and delivery. The BIM Manager will coordinate project-based “kick-off”, on demand and follow-up training, hands-on support for modeling, family creation, and graphic standards. The BIM Manager may be asked to provide Revit Coordination for the design team. Duties may require occasionally working outside the normal business day.

Essential Functions:

- Develop and implement office and project BIM standards
- Collaborate and contribute to project teams, consultants, and clients on a regular basis
- Develop and lead software training sessions
- Provide Help Desk support for approximately 40 Revit users
- Assist software procurement
- Evaluate and recommend software and hardware configurations and specifications
- Install and customize software which meets national standards

Candidates must:

- Be passionate about working collaboratively in teams.
- Be a self-motivated and creative individual with an interest in solving problems.
- Be able to plan and develop architectural projects with varying degrees of complexity.
- Be able to problem-solve, multi-task, establish priorities, and communicate with team members, clients, and the public.

QUALIFICATIONS

A graduate of an accredited Master or Bachelor of Architecture degree program or related educational and work experience.

EXPERIENCE

5 - 10 years' experience in an architecture firm
3 - 5 years' experience utilizing Revit in an architecture firm, an interest to teach others the software
Excellent organizational, time management & interpersonal skills are required
Excellent written and verbal communication skills
Thorough knowledge of National CAD Standards & National BIM Standards

SOFTWARE PROFICIENCY

Revit, Bluebeam (Studio), Adobe Creative Suite, SketchUp, Microsoft Office, AutoCAD, and Rhino
