

YGH ARCHITECTURE

architecture | interiors | planning

YGH Architecture is an award-winning design firm based in downtown Portland, Oregon. We serve a diverse range of public and private clients around the globe, and we strive to combine technological innovation and artistic rigor to achieve project excellence.

We are a learning organization that actively supports mentorship, professional growth and curiosity in a dynamic, collaborative work environment.

We believe in the power of design to improve our built and natural environment, and are committed to creating safe, healthy and inspiring spaces to live, work, and learn. We are members of the AIA 2030 Commitment and the Portland Materials Transparency Collaborative, early adopters of the JUST label, and are a Living Product 50 Materials Pledge signatory. We have also committed to designing PVC-free interior environments.

OPEN POSITION : Interior Designer VI

YGH is seeking an interior designer with more than 10 years of professional and design experience to join our team. We have a PVC-free policy regarding our interior materials and we are seeking candidates who are passionate about healthy and sustainable interiors.

Candidates must:

- Thrive working in a team environment and have strong leadership skills.
- Be a self-motivated and creative individual with an interest in solving problems through design.
- Be able to plan and develop interior projects with varying degrees of complexity as well as being integral with A/E teams to develop interior concepts for projects.
- Be able to multi-task, establish priorities, and communicate with team members, clients, and the public as needed.
- Have excellent organizational, time management, writing, communication, and interpersonal skills.
- Have experience preparing construction documents, writing specifications, detailing, and working with an A/E design team.
- Have experience in every stage of design, and the ability to carry a concept from programming through construction administration.
- Experience with a variety of project types, including tenant improvements, education, and corporate.
- Have technical proficiency in detailing, with a good understanding of building and accessibility codes.
